gangs in a snap

Patients are often spending more time at the doctor's office and at offsite clinics. As a result, comfortable, flexible seating arrangements are required for those spaces. Link was developed

as a response to those needs. It's a budget-friendly, durable and comfortable modular seating solution.

arm chair

highlights

- Plybend wood frames adds durability
- Generous clean out between seat and back
- Seats and backs are contoured for maximum comfort
- Available in two widths
- Arm caps are available in dove, sable, or black
- All models are wallsaver
- Complementary occasional tables in two widths
- Table tops are available with a thermoform top, laminate with self-edge top, or laminate with T-mold edge top
- Designed to accommodate bariatric capacities, 500 lbs. standard and 750 lbs. for wide version
- Ganging system available
- Moisture barrier included
- 10 year warranty.

key design elements

no tools needed for ganging

Ganging link is a snap, just arrange and align, and snap on the strap to connect. It's quick and easy, and saves installation time – 4 times faster than other systems.

important information

Due to the nature of Link's molded wood arm structure (excellent for strength and durability), connecting free-standing chairs together could result in up to a 3/8" variance in the alignment of the front legs. This variance is natural to a molded wood structure.

specifications

Product No.	Description	W	D	H	SW	SD	SH	AH	WT	YDG	WT CAP
