

perk

design perfected

WIELAND

an innovative design made even more practical

We've updated the popular plyfold chair with an engineered resin frame for easy cleaning. Perk features contoured cushions for ergonomic support, a 400 lb. weight capacity, and the

convenience of the SmartRail® storage system. When it comes to human-centered design for healing environments, Perk sets a new standard.

SmartRail® | every wall should have one

features

SmartRail®

- Stores easily out of the way on the SmartRail® hanger system and is handy when you need it
- Passes testing for healthcare cleaning protocols
- Designed for safety
- Stackable to 20 high on dolly
- 10-year warranty, including foam
