Wieland recommends selecting a contrasting laminate color to avoid a mis-match with a natural wood finish. A wood-grain laminate will never exactly match a natural wood finish due to variations or irregularities in color, grain, and texture of the natural product. This chart is to be used as a guide only in cases when the customer is aware that an exact match is not possible.

If wood grain laminates are desired, these are the closest coordinating laminates to our Wieland wood finishes. Wood finishes are not custom matched to laminates and Wieland is not responsible for color matching.
