## soul sofa + soul mate

Imagine a hospital room where furniture adapts to the needs of the moment, offering comfort to patients and practical support to loved ones. That's the vision behind our Soul Collection, featuring the versatile Soul Sofa and the innovative Soul Mate. We understand the demands on clinicians and the desire of families to create a more comforting environment. Through their multi-functional design, the Soul Sofa and Soul Mate aim to optimize space and provide practical solutions that ease the challenges of a hospital stay, allowing more focus on recovery and connection.

together + we visit. together + we rest.

together + we heal.

take a  
look

## made for each other

The Soul Mate offers an easy transition from a stowable ottoman to a comfortable guest chair with one intuitive step, the seat rising smoothly as the back unfolds. When the Soul Sofa is in the sleep position, the Soul Mate can be thoughtfully used as a nightstand. And for those times when space is critical, during a code or when medical staff are attending to the patient, its double wheel swivel casters allow a loved one to move aside easily and quickly, a design feature that considers the needs of everyone in the room.

## soul sofa highlights

- Fully renewable upholstery and components
- Standard moisture barrier
- Upholstered or solid surface armcaps
- Available in 5 lengths
- Metal frame offered in silver only
- Slim depth fits family zone with outboard toilets
- Open base allows daylight from full height windows to flow through
- Central locking casters help EVS teams clean and reset rooms safely and efficiently
- 750 lb. weight capacity

## soul mate highlights

- Multi-purpose convertible cube is designed to be used as an ottoman, nightstand or chair
- When not in use, up to three mates can be stowed neatly under the sofa
- User-friendly, one-step lift motion converts the mate to a chair
- The self-locking feature is carefully designed to be safe for the user as well as others in the room who might steady themselves on the back without realizing it folds
- Thoughtfully designed to avoid damage to walls by ensuring that all edges are cushioned
- 400 lb. weight capacity

## soul sleep sofa

The slim, curved arm style is repeated in subtle ways throughout the design and disguises this sleep sofa as a light, airy lounge piece.

Power with 120v/USB and USB-C ports is located conveniently above the arm. This allows the loved one to remain close and connected, which has been shown to reduce medication errors, shorten the length of stay and help staff when needed.

Tall legs with an open base allows daylight from floor to ceiling windows to pour into the patient room. Evidence has shown this leads to a shortened length of stay. The modern, slim aesthetic is a nod to hospitality, inviting the guest to feel comfortable and at home.

Solid surface arm caps extend down to the seat, eliminating fabric completely from the inside of the arms. Replaceable upholstered arm caps are also offered to enhance comfort and soften the look.

Renewable seat and back, combined with replaceable arm and frame components, extend the life of the product well beyond the 25-year warranty.

Generous clean outs between the seat and back combined with an open base will make housekeeping very happy reducing the chance of HAIs.

An innovative folding mechanism reclaims two additional inches of sleep surface, providing a slimmer overall depth that doesn't conflict with outpatient toilet door swings, without sacrificing sleep area.

## soul mate

An innovative self-locking feature is carefully designed to be safe for the user as well as others in the room who might try to steady themselves on the back while open without realizing it folds.

The Soul Mate's double wheel swivel casters allow the user to slide out of the patient zone quickly, without even getting up. This can be critical during a code situation and will happen several times a day when vitals are checked or meds are given.

The Soul Mate was thoughtfully designed to avoid damage to walls by ensuring that all edges are cushioned. The new resin overlay top enhances its versatility, now with an easy-to-clean, stable spot to place beverages, eyeglasses, and other personal items just within reach.

Thick, angled seat cushion with angled back allows loved ones to be comfortable at the bedside, yet stows neatly out of the way.

Up to three mates can be stowed underneath, depending on the length of the sofa.

## sofa standard features

**upholstered arm cap**  
Select from Momentum Silica Cumulus or Lotus; Momentum Silica Etch Almond, Flint, Nickel, Wetstone, or Wistful; Momentum Silica Leather Almond, Dove, Pewter, Shadow, or Eclipse.
