sustainability

Sustainable design includes responsible resourcing, continued recycling and enhancing existing internal processes. Compliance with the latest environmental laws and regulations is a natural by-product of our long-term commitment to our customers. We actively seek to conserve, recycle, and act with respect toward our environment.

- 100% of steel, foam, wood, plastic, and corrugated packaging used is either recycled or repurposed
- 90% of the fabrics offered are environmentally-conscious products
- 70% of supplies come from within a 500 mile radius of NW Ohio and NE Indiana
- All furniture is designed to be easily renewed, maximizing the useful lifespan of the product

greenguard®

GREENGUARD Certification ensures that a product has met some of the world's most rigorous and comprehensive standards for low emissions of volatile organic compounds (VOCs) into indoor air.

Indoor air quality (IAQ) is closely tied to health, and is an important concern in homes, schools, healthcare environments and commercial spaces. VOC emissions from building materials and furnishings is a major source of indoor air pollution. GREENGUARD Certification provides manufacturers with credible tools to verify and promote their sustainability efforts.

GREENGUARD Certification has been widely adopted as a trusted standard for low-emitting products, and has been the basis for the LEED credit for low emitting furniture since 2002.

BIFMA e3 level®

Wieland is proud to demonstrate a commitment to the environment, and to both the quality and performance of products through BIFMA e3 LEVEL testing and certification. Most customers demand that goods be manufactured to meet requirements for quality. And many consumers are also insisting that processes be Safe, Clean and Environmentally friendly or Sustainable.

The program helps manufacturers gain understanding on the social impact of their furniture products. LEVEL takes into account the manufacturing, facility, and organizational impacts at all levels before granting any certification.

BIFMA LEVEL is the furniture industry's standard by which companies like Wieland can demonstrate to our customers that we are good corporate citizens. It proves that Wieland is environmentally sound regarding sustainable woods, chemicals and hazardous waste, and efficient regarding materials and energy. All of Wieland's products are LEVEL Certified.

taking renewability to a whole new level

patient spaces

patient empowerment leads to positive healing experiences.

Reducing stress by accomodating visitors and providing a comfortable environment leads to higher satisfaction. Incorporating an "attention-to-detail" approach to anticipate and support patients needs contributes to their overall wellbeing.

lounge & waiting

The patient and family journey shapes the overall experience.

Many of life's biggest moments happen after much anticipation and waiting. Because of this, waiting is an important component of overall patient and family satisfaction within healthcare systems. To improve the experience, waiting room and lounge seating should accommodate diverse postures, behaviors and levels of privacy.

latitude collection

- o sleek metal frame with a tall, elegant leg
- o slightly domed seats offer superior comfort

dining admin

Spaces that nowlish and also foster effectiveness.

Supporting loved ones by "being there" at their side during any healthcare journey can be stressful for family members. By offering amenities to help them feel comfortable and at home, the goal is to help calm and soothe the nerves. To dampen the worry, productive staff areas help maintain a high quality of care. Spaces to dine, spaces to work or just spaces to be alone to reflect is imperative to enhancing the experience.

upland collection

• multiple seat and back options for re-imagined support spaces for employees

chairs | stools | tables

chapel seating

Spaces to foster spiritual

strength give families solace.

An important task for healthcare architectural teams is to design environments for loved ones who might be praying, grieving or reflecting—and help them feel at peace during challenging times.

Wieland has the distinct ability to offer a range of chapel products that come from our roots as a provider of worship furniture. This resource is a perfect complement to our patient room expertise.
