

sleepToo®

WIELAND
healthcare

the family's proven role in the healing process

Hospitals continue to see the value of family involvement, implementing “Patient and Family Centered” models of care. Hospital staff who engage families as active participants on their teams understand patient outcomes improve with family participation. sleepToo® is designed to accommodate and support both staff and families during care giving.

families remain close ... and productive

sleepToo® offers family members a space to work, be connected or even recharge while remaining in the patient room, not missing the opportunity to consult with staff or to help the patient.

efficient and versatile ... eat, sleep and relax

Families enjoy a variety of activities within a small footprint. In only 20 square feet, sleepToo® conveniently converts from a place to put your feet up, to a place to dine or a place to sleep. With ample space for storage and activities, sleepToo® redefines the family zone so loved ones stay nearby.

it's a virtual family room®

dine, visit, work, sit, recline **and** sleep
in just 20 square feet

classic – a simple full front design

custom – separate seat cushions
accommodates multiple base options

make the most of your
family zone

- Family Zone
- Caregiver Zone (4' around bed)
- Patient Zone

be together

Research proves that patients who have the support of loved ones during the recovery process heal faster.
